THE MONITOR NEWS

VOL. 5 MONITOR, ALBERTA, FRIDAY, JANUARY 23 1920. NO. 5

Sermon On The Forward Movement.

At Divine Service, Sunday next, Jan. 25th, at 7.30 p.m. a sermon will be preached by the Rev. H. Sherstone L. Th. on the Forward Movement. The Rev. W. S. Wickenden and the officers of the Church request a good attendance.

Sunday School 12 Noon.

Bible Class Tuesday evenings 8.15 p.m. The period of the kings of Israel and Judah is being studied.

Choir Practice, Thurs. and Sats. 8.p.m.

See the Parish Leaflet for Bible Competition for Young and Old.

War Veterans To Hold Annual Banquet

Next Thursday the Monitor branch of the G. W. V. A. are celebrating their first birthday in right royal style. There is going to be a Banquet, given by the members themselves, to their friends, relatives and dependents. This banquet will be attended by W. J. Blair, Esqr., M.P. and other prominent citizens. In the evening there is to be a grand Dance to which the whole population is invited to attend. Admission is set to the dance at $1.00, ladies are free, and it is expected that this dance will far outshine any similar gathering that has been held here since Monitor came on the map. The music will be supplied by the Monitor Citizens Band, under able leadership of Bandmaster Tarr. We hope to be able to publish a precis of the proceedings in our next issue.

Will the members of Monitor Branch, G. W. V. A., please note that a meeting of the members is called for 3.00 pm. on the 29th in the Veterans Hall. It is especially requested that all members make it a point to attend.

"The Mysteries of Freemasonry"

From the pen of Frank C. Higgin, 32°, A. S. R., Past Master of Ivanhoe Lodge, No. 910, New York in The New York Herald, Every Sunday.

These documents on the hitherto almost forbidden subject of the Masonic Craft, its origin, history, mysteries, symbolism and mystical teachings, have been received with delight by the Masonic Fraternity all over the United States and abroad. They are unique in representing practically the first public discussion of Freemasonry as a positive force in the construction of Progressive Thought which has ever appeared in any newspaper.

The Sunday New York Herald may be secured either from your local newsdealer or direct from Promotion Department of The New York Herald. One month, 25 cts. three months, 75c.

ALERT ALTARIO

The Schoolhouse was well filled on Friday to hear Dr. Robinson lecture on Heredity. This is the first lecture of its Kind we have heard in Altario, and we trust the series will continue right along. Everyone agreed they had spent an instructive time and received much food for thought as the Dr, touched on the wonderful laws of Heredity shewing the part environment and selection played in the animal races. The subject was well handled, and altho at times it seemed to take one out of one's depth yet the Dr's choice of language enabled us to follow him to enable us to follow him to the end. The Concert numbers that preceeded were up to high standard and as our chairman suggested, we have enough real talent amongst the young people to take up quartet singing. Mrs. J D. Robinson recital of a "Cuban Tea Party" brought down the house The Misses Kallman scored a great success in their duet and an encore was insisted upon. Muriel Munday sang very sweetly, her voice is improving greatly was the comment we heard Dwight Robinson's "Somerset" song was a big success and the young childrens choir was at its best in the song about the Prince of Wales. Mrs. Conquest gave an extract from Tennyson "The Children Hospital" which was also appreciated. The desire on all sides is that such an evening should be the first of a series for the rest of the season.

The snow plough has been driving up and down the line this week.

Attendance is not very good at school these days owing to the inclement weather, but those who do go report they are all getting interested in the coming School Fair and hope Altario will make an excellent show then.

The coal shortage is happily at an end and we have now no difficulty in keeping the home fires burning. The H. C. L. can be solved to a certain extent by living on white fish local merchants are stocking white fish which is exceedingly nutritious especially when served with good white sauce.

Dont forget the enquiry for more Recipes dear lady readers for the Altario W. I. Cook Book We hope to have this in the printers hands in a week or so.

If any Englishman (or even a Scotch or Irishman) would care to read occasionally the London Times we shall be glad to forward same After many years o reading the wierd western Canadian jounalisin it is refreshing to relish a real editorial from the chair of the most important daily in the world, The agony column alone is an interesting feature containing often the ecquiry for folks for whom money is waiting if they will only turn up.

We saw Johanna Hagen looking bright as usual.

Did You Know That

In an ordinary column of newspaper type there are 10,000 pieces, there are seven wrong positions that a letter may be put in, there are 70,000 chances to make errors and millions of chances for transpositions. In the short sentence "To be or not to be," by transpositions alone it is possible to make 2,759,022 errors. So you can see the perils that beset a printer. We don't know who compiled the above figures, but we believe they are pretty nearly correct.

'KIRRIEMUIR KOLUM'

Harvey Anderson arrived home Thursday from Calgary.

A meeting of the Directors of the W. I. was held at the home of Mrs Hennessy to appoint a member to attend the U. F. A. Saturday to present the aims of the Institute with the object of Cooperation Mrs. V. S. Kay was elected.

The next meeting of the Institute will be held at the home of Mrs. Kay on February 29th election of officers for the coming year.

J. B. Heywood of Heywood and Bircher left for Calgary with a carload of stock for the Market.

Mrs. Lovell arrived from Cornation Thursday she reports Myrtle doing nicely after the operation.

The meeting of the church Board was held Sat. Jan. 17th at the home of Mrs. Ross.

Mr. Birtles left yesterday to join Mrs. Birtles in Alexander Manitoba.

The social which was to have been held in the Kirriemuir school house on Febuary 6th has been changed to Jan. 30th

O Schon delegate for the W. F. A. left for Calgary Friday to attend the convention.

"PSYCHE"

The Shah Travels.

The Shah of Persia is on his travels. London will see him and keep him, apparently, for some little time. Europe has memories of the perergrinations of other shahs. They are quaint memories, some of them. There was Nasr-ed-Din, in 1873, and there was Ahmed Mirza, many years later. There would have been a visit, in 1894, on the part of Nasr-ed-Din, but for a Brussels journalist. It happened that, on the Shah's traveling program becoming known, a Brussels daily published an article which seemed to prognosticate a cool welcome in Belgium. The Minister of Justice of the period thought fit to give the article the publicity of judicial proceedings. The writer was summoned before a Brabant tribunal, but he was exonerated. But the verdict had the immediate effect of keeping Nasr-ed-Din at home in Teheran.

Suits.

A correspondent of an English paper recently indulged in this bull: "Lest a whisper of the hidden hand be heard—" Was it an English clergyman who said to his congregation, "Brethren, the muddy pool of politics was the rock on which I split"?

Nothingness.

"Mrs. Flimgilt thinks of nothing but clothes," said the critical woman.

"Yes," answered the man who observes superficially. "And after seeing her costumed for ballroom or bathing beach I should say that when she thinks of clothes she thinks of next to nothing."

Card Of Thanks

Mr. and Mrs. E. T. Stewart, of Monitor, desire to thank the many friends in this locality for the sympathy and kindness shown them in their recent bereavement, when their little son Floyd was taken Home.

The Church And Its Work

By The Rev. W. S. Wickenden. B. A. L. Th. Rural Dean

The Forward Movement

The Forward Movement had its birth in thanksgiving for Victory. It was felt that a genuine thanksgsving to Al. mighty God could only be adequately expressed by a Dominion wide re consecration of the members of the Church; first of all, in a determination to sincerely seek to model their lives according to the Saviour's pattern of love and self sacrifice, and secondly, to wholeheartidly seek to make known to others the power and fellowship of the Gospel.

Let all whose trust is in Christ see to it that they are taking a prayerful, active part in building up His Church in this great Foward Movement.

This Forward Movement may be the last great effort before Christ comes back. How joyful and blessed to be found in that Day diligently for Him.

CHURCH NOTICES

The co-operating Presbyterian and Methodist Service will be held as usual next Sunday, January 25th in Monitor from 1 to 2 p.m. (Miss Carroll, Soloist) and in Kirriemuir at 7.30 p.m. (Mrs. Kay, Soloist) Everybody is cordially invited to come and worship. Rev. J. L. Wright pastor.

Weekly Discussions

A free-for all discussion group has been organized and meets each Sunday from 12 noon to 12.50 in the home of Rev. and Mrs. J.L Wright. Any Subject that you wish will be taken up and discussed carefully and fearlessy. The subject for next Sunday is "The Anger of Christ"

All grown-ups are heartily welcomed. Nine were present last Sunday. We are having a good time. Come. J. L. Wright.

An Apology

With reference to the article we published in last weeks News, relative to the matter of "Cattle Rustlers" it appears on further investigation that Art Johnson was in no way connected with the matter, it being another brother, who was referred to.

Not knowing any of the Johnson family, we naturally supposed that the name was correct as we received it, and as this news was sent through the mail, and signed by the contributor we took it at its face value.

We desire, however, to apologise to Mr. Art Johnson for the publicity given him and to assure all concerned that the mistake was unintentional.

Local Happenings

Mr. J. C. Mayrs, until last Friday the cashier of the Canadian Bank of Commerce at this point, left to assume similar duties at the Bank at Star City, Saskatchewan. Mr. Mayrs created a number of friends in this place by his courteous treatment of his customers, and by his cheery manner in private life. The best wishes of the community follow him to his new post.

Mr. Smith-Hill of Saskatoon, Sask. was visitor here last Saturday. He states that business has been quieter there than is usual for this time of the year and that he expects to return to this locality in the spring. All the family are enjoying the best of health. Of course, being a sensible man, Mr. Smith-Hill renewed his subscription to the News ere his departure for the eastern city.

Dr. D. J. Bechtel, Optician, of Calgary, will be at the Hotel in Monitor on Monday until Tuesday noon, January 26 and 27th, and at kirriemuir Tuesday until Wednesday noon, Jan. 27 and 28th.

Have your eyes cared for at this time. Consultation free.

W. G. MacKenzie left last Monday for Stettler.

Mr. Skidmore shipped a carload of cattle from here on Monday last, to points where feed was available.

H. M. Killian, Esqre, of Calgary, paid a brief business visit to Town on Wednesday last.

Once again we are in the grip of a cold spell. The temperature at 8 a.m. yesterday registered 40 below Zero, and it must have been hovering around the 50 below during the night. Luckily for all of us, the wind stayed somewhere else.

Farmers and stockmen in this country are facing the problem of keeping their stock without feed. The feed situation at present is vitally affected, and unless something can be done to relieve the shortage, many cattle and horses will undoubtedly die of starvation. As it is, reports are coming to hand of several carcases being found on prairie of animals that have starved to death.

Big Programme Is Arranged For the 6th of Feb.

A musical evening is being arranged by the Monitor W. A. for Friday, February 6th. The Citizens Band, Mr. and Mrs. Kay, Miss Carroll, Mrs. Tarr and others have promised to assist, and a splendid time is assured. The proceeds of the evening are in aid of the W. A. who are endeavoring to liquidate the debt on the Church lands. Tickets are 50 cents each It is hoped every citizen in the community will assist this worthy object.

Appendicitis Prevented Life Lengthened Health Maintained

Thousands Finding Wonderful Benefit in a Simple Home Remedy That Costs But a Quarter.

Doctors say if people kept their bowels in proper order there would be no such disease on record as appendicitis. It is due solely to neglect, and is therefore preventable.

If you have constipation, bad breath or headache you need medicine right away.

The moment you suspect your bowels are clogged you should take Dr. Hamilton's Pills, the smoothest regulator of them all. They move the bowels and cleanse the liver so smoothly you scarcely notice the effect. But you can get the action just the same. Taken at night you wake up next morning, clear-headed, hungry, rested, energetic, feeling like a different man.

Why don't you spend a quarter today and try Dr. Hamilton's Pills. They work so easy, just as nature would order, never gripe or cause headache. Finest thing for folks that are out of sorts, depressed, lacking in color and spirits.

Folks that use Dr. Hamilton's Pills are never sick, never an ache or a pain—feel good all the time simply because their system is clean, regulated and healthy. This you can easily prove yourself.

Coal Industry In Alberta

Report of the Commission Investigating Coal Industry Is an Interesting Document.

Few, if any, attempts have been made to depict the Canada of a hundred years away, when a population of from fifty to a hundred million will crowd in wide stretches now unreclaimed, under a much milder climate than now enjoyed. The intensive life of that later date, when natural resources will be national resources, when the problems of transportation will be simplified beyond all comparison with the tediousness and costliness of today, when industrial efficiency and sociological efficiency will coincide in a vastly improved and more independent economic system, forms a subject for interesting and fruitful speculation.

Anyone so inclined could speculate to considerable lengths as to the future of the natural resources of Alberta, more particularly in regard to the vast mineral wealth that the coal fields of the province hold. Therefore the report, now at hand, of the commission who have been investigating the beginnings of the Aberta coal industry, is an interesting document as relative to what has been accomplished in the exploitation of one of the greatest fields of mineral fuel in the world.

The industry is still in its swaddling clothes, but its growth is being forced through the needs of the moment. Operation is still limited by the ease with which the coal may be obtained. When the fuel may be dug out quarry-wise with a steam shovel, and loaded in the cars with no other expense, it depreciates the value of other leases, where the coal is equally good, but the expense of mining is higher. Then ensues the inevitable matter of costs. Labor, unfortunately foreign controlled in many sections, is an uncertain quantity, in spite of the high wages. Only a fraction of the work may be performed by machinery, and the mines only operate for part of the year. The difficulties of storage are great, and the tendency of the coal to weather is another unfortunate feature that hampers twelve months' operation. Transportation limits development to the narrow belts tributary to the two railways, whereas the entire area might be as easily exploited. Add to these difficulties the loss caused by the gambling in leases which ensues constantly, the lack of co-operation between the component concerns of the industry, and the extremely high freight rate that comes as an overhead charge upon production, and the handicaps in the growth of the industry are fairly well defined. Thus it is that many mines are producing much coal and selling it at a high price, and finding but slim profits, in some cases failing to make interest commensurate with the investment.

A hundred years will bridge many difficulties, and it will probably see ten millions of population grouped about the coal industry of Alberta. All the vast underground will teem with its laboring population, under conditions of comfort that would be impossible in any present day mine. There in the old almost-modern hot swamps, first crushed by the ice and then carbonized by time, the busy drills of countless machines will be gutting the earth of its wealth of mineral. The workings will be of an extent undreamed today; cities might be built in the stripped spaces. Thousands upon thousands of tons will rise to the sunlight daily, the possession of the state, and the great basis of the wealth of Western Canada of that time.

Little coal will be shipped as coal in those days. The lignite coal, fuel but a million years too young, will burn at the pit head, in the operation of power plants whose circuits will cover half the west. Electricity will flow outwards as motive power to the entire industry of the nation, its source found in material which today is of no use to anyone. The better grade, the steam coal, will have another function then far beyond the waste of combustion for heat and flames. A certain quantity, perhaps, of the cheaper grades may be briquetted for export to less favored lands, but the chief function of the good grade coal, that is the majority of Alberta's supply, will be for the extraction of coal derivitives. This great and increasing family of oils and dyes and gums and medicines, will probably be enlarged indefinitely in the next century, and the learned of that day will think in bewilderment of the people who formerly used this richness for the sole purpose of fuel. So that from the ground will come dozens of industries, divergent and intricate, having their foundation in the coal industry that is now struggling for its footing. It is to be hoped that the forward movement has already begun, and that the recognition of the almost priceless value of this great possession will lead to more efficient and more extensive development from now forwards.—Edmonton Journal.

Non-Existent Arctic Lands

Storkersen's Journey Proves Whalers Were Deceived By Mirage.

A change must be made on the maps of the arctic regions, for on the report of Storker Storkersen, second in command of Stefansson's arctic expedition for the Canadian government, Keenan Land has no actual existence. Over the place where Keenan Land has been supposed to be for about half a century Storkersen and his fellow explorers drifted on an ice floe, making soundings that reached a depth of 3,000 meters without touching bottom. The explorers floated on their ice island, which was some fifteen miles long by seven wide, for eight months before the ocean froze and the new ice gave them a chance to escape to the mainland; but the floe served the purposes of the expedition; and on this strange craft, driven by shifting winds, the explorers continued their observations and added to their knowledge of the region they had set out to examine. Keenan Land, which has so long held a place on the arctic map, was supposed to have been discovered by whalers, but Storkersen's journey on his ice floe proves that the whalers were deceived by a mirage. In the same way Crocker Land, which Peary believed he had sighted and which for a while had its place on the arctic map, was proved by Donald MacMillan's later investigation to have been non-existent, another example of the illusion of the Far North that has so often misled observers into a firm conviction that land had been sighted.

Last year the vessels built in Canada had a tonnage of 53,912 tons. During the year the tonnage of vessels entered inward and outward at Canadian ports, sea-going and inland, but not including coasting vessels, had a tonnage of 66,802,488 tons. The tonnage of vessels engaged in the coasting trade was 61,462,600, making a total of 128,265,088 tons.

Your Eyes A Wholesome, Cleansing, Refreshing and Healing Lotion—Murine for Redness, Soreness, Granulation, Itching and Burning of the Eyes or Eyelids; "2 Drops" After the Movies, Motoring or Golf will win your confidence. Forestall Colds, Chills and Influenza

Take

BOVRIL

Use Bovril in your cooking. It flavours, enriches, nourishes more.

The Body-building Power of Bovril has been proved by independent scientific experiments to be from 10 to 20 times the amount of Bovril taken.

According to an official census of the dairy industry taken in 1917, the total number of creameries and factories in operation in Canada is 3,418 including 949 creameries, 1,900 cheese factories, 349 combined factories producing both butter and cheese, and 220 condensed milk factories. The total number of patrons is 248,683. The province of Quebec led in creameries and was a close second to Ontario in cheese factories.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

Alberta Hogs Make Good

Canadian Bred Swine Found Superior to Imported Stock.

The high merit of the class of live-stock being produced in Western Canada today is evidenced by the following incident related by Mr. William Gilbert, of Stony Plain, a small town situated in the centre of the rich mixed farming districts of Central Alberta.

Two years ago Mr. Gilbert sold a yearling Berkshire boar to a farmer in Saskatchewan. The brother of this farmer, a large swine raiser in Nebraska, visiting him shortly afterwards, saw the boar and was so impressed with him that he was very anxious to purchase him to head his own large American herd. This he succeeded in doing, and after using the boar for two years he now writes Mr. Gilbert ordering forty young sows as the demand for the progeny of his Gilbert-bred boar is so great that he is unable to fill half of his orders. While Mr. Gilbert imported his two herd boars from the States and is importing other stock from time to time he finds that the first cross on the Canadian bred sows gives swine even superior to the imported progenitors, excelling them in size, bone, length, smoothness and also in the size of litters. Swine breeders recognize these as very important points.

Watching Immigrants

Federal Authorities Scrutinizing Entries for Possible Reds.

Immigration authorities at Ottawa, while admitting that the hunted "Reds" of the United States will endeavor to secure sanctuary in Canada, point out that the immigration laws of Canada are very strictly opposed to the entrance of undesirables, that immigration officers all along the border are on the alert to keep them out and that in addition the mounted police cordon is now spread from the Pacific through the prairie provinces down toward Rainy river and Thunder bay. As a matter of fact, several intending entrants already have been barred back on suspicion; others may be held pending investigation and a clean bill is being demanded of all would-be immigrants.

SWITCH OFF!

Put aside the Salts, Oil, Calomel, or Pills and take "Cascarets."

Are you keeping your bowels, liver, and stomach clean, pure, and fresh with Cascarets, or merely whipping them into action every few days with Salts, Cathartic Pills, Oil, or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets gently cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the colon and bowels all the constipated waste matter and poisons so you can straighten up.

Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, or cause any inconvenience, and cost so little, too.

It's a poor rule that isn't good for more than one kick.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. Stops Irritation; Soothes and Heals. You can get restful sleep after the first application. Price 60c.

Heading Him Off.

"Now, Rollo, I'll tell you a nice fairy story. Once there was a woodchopper——"

"Aw, cut it out. I'm tired of hearing about the Kaiser."—Louisville Courier-Journal.

"My Back Is So Bad"

PAINS in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Poisons are being left in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pills.

There is no time for delay when the kidneys go wrong, for such developments as hardening of the arteries and Bright's disease are the natural result.

One pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

Dr. Chase's Kidney-Liver Pills

"Rufus, aren't you feeling well?"

"No, Sah, I'se not feelin' very well, sah."

"Have you consulted your doctor, Rufus?"

"No, sah, I ain't don' dat, sah."

"Why? Aren't you willing to trust your doctor, Rufus?"

"Oh, yes, sah. But de trubble is he's not so all 'ther willin' to trus' me, sah."—Yonkers Statesman.

PILES Do not suffer another day with Itching, Bleeding or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 60c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

Notable Further Progress of The Union Bank of Canada

Assets Built Up To $175,000,000 and $2,000,000 Added To Reserve Fund — Bank's Position Strongest In Its History.—1425 New Shareholders.

With assets built up to a total of $175,000,000 and $2,000,000 added to the Reserve, bringing that fund to a total of $5,600,000, the 55th annual report of the Union Bank of Canada discloses that the Bank is in the strongest position in its history. Significant extensions throughout Canada and abroad, aimed to assist in the fullest possible development of growing Western Communities through the enlargement of their banking accommodation are announced.

The Union Bank of Canada's impressive figures are all the more gratifying having full regard for the vicissitudes of the reconstruction period through which the country has been passing.

The total deposits have reached $135,500,000. Of this amount, interest-bearing deposits which actually represent the savings of the nation, show a satisfactory increase of $15,900,000 in the year. This substantial gain was recorded in spite of heavy withdrawals for public participation in the Victory Loan of 1919. Subscriptions passing through the Union Bank of Canada amounted to $28,500,000, a great proportion of which was directly withdrawn from deposits.

Current loans in Canada total $86,500,000, compared with $74,000,000, a gain of $12,500,000 or 16.89 per cent. This substantial sum will indicate that the Union Bank of Canada is doing its part toward meeting increased demand for loans from the Canadian public.

During 1919 the branch bank system was expanded to a total of 390 branches, 89 being opened in the year.

Every endeavor has been put forward to make comfortable the re-establishment of the returned soldier. 936 members of the staff enlisted for overseas service. 123 paid the supreme sacrifice; 130 have not reported for duty, but 683 have been absorbed into the Bank again. Each of these returned officers has been re-instated at an increased salary.

MR. H. B. SHAW,
General Manager, who returned the Strongest report in the Union Bank of Canada's History.

The President, Mr. John Galt, and General Manager, Mr. H. B. Shaw, made a strong plea for national and individual thrift based upon the country's necessity of liquidating huge war debts. "Trade conditions in Canada are good," said Mr. Galt. "We are getting high prices for our products. It is a time, however, when we should put forth every effort to increase production and build up reserves against lean years that are sure to come. The war is not paid for. Part of the price will be hard times, though they may not yet be in sight. If we are wise, we will prepare for them."

H. A. WARNER EDITOR and PUBLISHER

Monitor FRIDAY JANUARY 23 1920 Alberta

The Seed Oat Situation

In those districts where the oat crop was a partial or total failure last season, farmers are become some anxious as to the available supply of seed oats.

There is a general tendency on the part of farmers who have seed oats for sale to withhold them uptil later in the Winter. The movement of seed oats is delayed also, because transportation has been needed for coal, feed and live stock.

Possibly 400,000 bushels of seed oats may be required in Ontario and Quebec, and much larger quanity in Southern Alberta and Saskatchewan. The Canadian Goveanment Seed Purchasing Commission already has substantial supplies in store in Interior Terminal Elevators, and large quantities of good-quality early-harvested oats are still coming foward. Alberta and Saskatchewan requirements will be given first consideration from the seed oats produced in these provinces.

The shortage in Ontario and Quebec may quite easily be met from the large and excellent oat crops in Prince Edward Island and Eastern Nova Scotia.

No.1 quality Island Banner seed oats are now being delivered as far west as Toronto at a price comparable with Western seed oats of the same grade.

The price of No.1 Seed oat delivered in bulk carlots at any point in Ontario Quebec should not exceed the current Fort William cash price for No.2 Canada Western oats by more than 35c per bushel. Registered and other select stocks true to vriety may be higher in price.

The Dominion Seed Branch provides a system of grading and inspection, so that shippers in either Western Canada or the Maritime provinces may make delivery of seed inspection certificates with their bill of lading. Purchasers of seed oats in any part of Canada may now buy on the basis of grade, No. 1 Seed, No .2 Seed, etc. and subject to the delivery of seed inspection certificates.

GEO. H. CLARK,
Seed Commissioner.

CHANGING THEIR NAMES.

New Fad Has Developed In England In Recent Years.

A name to Englishmen had so little in it that until the outbreak of the war a man could call himself anything he liked without consulting the law. A privilege which enabled him to indulge his fancy for a resounding name or to get rid of an ugly patronymic like Bugg, which it is recorded was exchanged by a saloonkeeper for a combination of the old English names Norfolk-Howard.

During the last four years alone the following names have been abandoned: Baggs, Buggy, Gotobed, Onions, Outlaw, Pickles, Scragg and Tart.

When the war broke out there was a rush among people who bore German names to change them, but in 1914 the Defence of the Realm Act stopped enemy aliens from doing so, but British subjects were still permitted to make a change, and they have done so ever since, and continue to do so. Up to date over 2,000 changes of enemy surnames have taken place since the war broke out.

The first foreign surname changed after the war broke out was that of a Liverpool man, who changed his Rosenheim to Rose on August 11, 1914, and by the end of the month 64 similar names were changed. The sinking of the Lusitania was followed by an increase in changes to 110 and 152 in May and June, 1915. After this the figures dropped until January, 1919, when the number rose to 80, which has been the average figure for this year.

A list issued by the British Empire Union gives a number of the changes, and it is not difficult to trace the different principles on which the changes have been effected. In many cases there have been direct translations, such as Konig into King, Muller into Miller, Schloss into Castle and Schneidner into Taylor. Sometimes the translation has been indirect, such as Steinthal into Petrie, through "petros," the Greek word for Stone, and Leinenweber into Webster, which is the Scots for weaver.

A very popular form of change has been the adoption of the initial letter, especially Gee, Kay and Kaye, for unpronounceable polysyllables. Thus we can understand that Mr. Gunzenhauser may have been known by his friends for years as Mr. Gee, and Mr. Kronenberger as Mr. Kay. In other cases the first syllable has been adopted, such as Hittbrecht into Hill, or it has been the last syllable, such as Hansmann into Mann.

In the process of change a great many famous Teutonic names have disappeared, notably those of Bach, Handel, Hindenburg, Koch, Mendelssohn, Schubert, Schuman and Wagner. A number of celebrated British names have been utilised, such as Burns, Gainsborough, Raeburn, Scott, Shelly, Sheridan and Wallace. Among the notable titles adopted as surnames are those of Airlie, Beresford, Burnham, Bovercurtry, Curzon, French, Milner, Ruthven, Rutland, Sheffield and Wentworth.

A very curious aspect of the question is in the fact that different members of the same family, living sometimes in the same house, have changed their names at different periods during the war. Still more curious is the change of the same name by people of the same address into different names. In one case a Mr. Meissenheim became Mason and another Homer.

Peace and Its Obligations

With the formal exchange of ratifications of the Peace Treaty of Versailles by Germany and the great powers, with the exception of the United States, and many of the lesser powers, the Great War came to an official and legal end on Saturday, January 10, 1920, and peace in an international sense once more prevails in a wold distracted by war for over five years.

This exchange of ratifications, and the official promulgation of peace, might have been accomplished much sooner but for the dastardly act of the Germans in sinking their surrendered fleet at Scapa Flow during the progress of the peace negotiations. As a result of that outrage, the Allies insisted upon a protocol to the Peace Treaty, and this protocol Germany was compelled to sign on January 10, before the exchange of ratifications took place.

Peace is now an accomplished fact, and with the coming into effect of the Treaty of Versailles the League of Nations also becomes an established organization. It is no longer merely a paper organization, a document of principles, outlining certain machinery for the preservation of the peace now proclaimed. It is a body officially recognized by most of the nations of the world, an organization in which the nations have membership, and to the carrying out of whose aims and objects they are pledged.

For the time being Germany and the other nations which were in alliance with Germany in the war are not admitted to membership in the League. They must first prove their sincerity and honesty of purpose in carrying out the objects of the League. Then and only then will they be admitted to full membership. The United States is not a member as yet, because, owing to political differences in that country, which are acute because of the approaching presidential election, the senate has not yet ratified the Peace Treaty with its League of Nations covenant. It is inconceivable, however, that the United States will refuse to ratify the Treaty of Versailles and join the League. Such a refusal would be a denial of everything for which the American people went to war.

Included in the covenant of the League of Nations is the new international labor organization, which aims at the establishment of a new and better order of things for industrial workers throughout the world. Not only is the League an established fact, but it has already held its first meeting at Paris and taken steps for the efficient administration of the many complex problems entrusted to its care, and in the solution of which alone will be found a guarantee of permanent peace.

But while international peace has been again established, a gigantic task still confronts all nations in the bringing about of domestic peace and wholehearted co-operation among the peoples of their respective countries. The Great War created such a world upheaval, and resulted in such a loosening and breaking away from the foundations and accepted conditions of the past, largely destroying old political ties and changing economic conditions everywhere, that men today are more or less unsettled in their ideas. It is a time when great leaders, men of conviction and courage, are needed, and when all people require to exercise a large degree of patience and a high and lofty patriotism.

In the turmoil, suffering and sorrows of the Great War mankind hopes that many of the old abuses and evils of the past have been destroyed; that all the destruction that took place was not bad, but that much of it will prove to have been good. On the other hand, mankind also hopes that because of the sacrifices made, the sufferings borne, the patriotism and heroism displayed, there will emerge a nobler conception of man's duty to his fellowmen, a higher standard in religion, in intellectual attainment, in social relations, in community life and service.

In this new peace era,—in this dawning in the twentieth century of a changed period in the world's history,—the people of all nations should turn their backs on the past, and, forgetting those things which are behind, press onward with faces alight and eager hands to grasp the more glorious things that lie ahead. The old ignominious strife in party politics, the cruelty and oppression and ruthlessness in business competition, between Capital and Labor, between the classes and the masses, should be superceded by a new spirit and a ready willingness to co-operate the one with the other for the good of all.

We have undergone all the sufferings, the horrors, the losses of the Great War. We have borne up and worked together with a national determination to achieve victory for the right. We have accepted our losses in a splendid spirit. Now, in the interests of all and of our common country which by our efforts we have saved from enemy despoilation, let us remain united, united more firmly than ever, in cordial co-operation to bring out of the Great Sorrow the maximum of blessing to all.

To Prevent Influenza

Colds cause Grip and Influenza—LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

Looking to British Columbia for Lumber.

With Washington and Oregon mills reported to be booked up to capacity, eastern American timber buyers are now looking to Canada.

A. H. Purcell, of New York, representative of a big timber brokerage firm, has been in Vancouver for the past two or three weeks for that purpose, and is understood to have placed, or to be about to place, several large orders.

"Tea; for while coffee can settle down tea is compelled to draw."

ARE YOU WEAK AND RUN DOWN?

In This Condition Only a Tonic Medicine Can Renew Your Health.

The condition of being "run down" is one that doctors do not recognize as a disease. The physician of today who gets his training in a hospital where only severe disorders are encountered knows little about it. But those who are run down in health know that it is not a fancied affliction.

The expression "run down," applied to health means a condition in which all the bodily functions are enfeebled. Appetite fails, the digestion is impaired, the nerves are impoverished, the complexion becomes pale or waxy, there is no animation, but rather worry and mental depression. Fatigue is a constant symptom. No particular organ being affected, you must look for relief to the blood. As it circulates through every part of the body, any improvement in the condition of the blood is quickly felt throughout the entire system. As a restorer of the blood and builder of weak nerves Dr. Williams' Pink Pills stand at the head of all tonic medicines. Every dose of these pills helps to enrich the blood and strengthen the nerves, and thus the various organs regain their tone and the body recovers its full vigor. Ample proof of this is given in the statement of Mr. William Devine, Gerard street east, Toronto, who says: "Two years ago while employed as a conductor on the Toronto Street Railway, I became much run down. I consulted a doctor who gave me medicine, but it proved fruitless as I was constantly growing weaker. My appetite completely failed and I fell away in weight until I only weighed 125 pounds. I was sometimes taken with fainting spells, and finally felt compelled to resign my position. I tried what I thought was lighter work, but with no better results. I was growing weaker and weaker. One day a chum urged me to try Dr. Williams' Pink Pills, but by this time I was heartily tired of medicine, as nothing I had taken did me any good. Finally he bought me a box of the pills, and I could no longer refuse to try them. After a time I felt they were helping me and then a gladly continued their use, with the result that I was finally enabled to go back to my old position fully restored to health. I owe this splendid condition to Dr. Williams' Pink Pills, and can strongly recommend them to any one suffering as I did."

Dr. Williams' Pink Pills can be obtained through any medicine dealer, or may be had by mail, post paid, at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Woman is a subject never mentioned in Morocco. It would be a terrible breach of etiquette to ask a man after his wife or wives.

Elephants Good Workers

Drivers Have Special Language Which the Animals Understand.

Elephants do their best work in driving timber, working it with the current, releasing logs from jams and rolling the stranded logs back into the water. The elephant drivers have a special "elephant" language which the animals understand—a special elephant vocabulary with such terms as "Push sideways," "Roll," "Pull out," "Stop," "Lift your chains." They are magnificent swimmers. When they swim from bank to bank, herding the logs that require their special attention, you see nothing of them except the tips of their trunks through which they breathe, and the mahouts, or drivers, who are generally in water up to their waists. If a big stack or jam breaks suddenly where elephants are working, they know the danger of being overtaken. They trumpet and clear off to either bank or swim downstream as fast as they can go.

Building Activity In Calgary

Calgary's Building Returns for 1919 Show $1,000,000 Increase.

Bearing out the preliminary estimate published recently the total value of the building permits issued in Calgary, Alberta, during the year 1919, the completed figures show that the aggregate was nearly two and a quarter million dollars. The exact total was $2,211,110, as compared to $1,196,800 in 1918, an increase of $1,004,300. For the last three years, the report of building permits issued each year have shown figures just about double those of the preceding year in value.

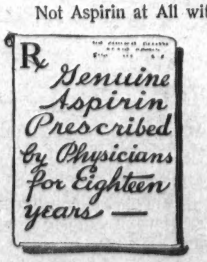
ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"



The name "Bayer" identifies the only genuine Aspirin,—the Aspirin prescribed by physicians for over nineteen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Ten boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer"

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

DON'T think that because your stomach can digest food you are proof against indigestion. The most important digestive work is done by the bowels, liver and kidneys. Unless these are active and work in harmony, you are in danger of self-poisoning.

Columbus had faith; what he discovered was not what he dreamed; but if he had not dreamed he would have discovered nothing. — Lowes Dickinson.

Minard's Liniment Co., Limited.

Sirs,—I have used your MINARD'S LINIMENT for the past 25 years and whilst I have occasionally used other liniments I can safely say that I have never used any equal to yours.

If rubbed between the hands and inhaled frequently, it will never fail to cure cold in the head in 24 hours. It is also the best for bruises, sprains, etc.

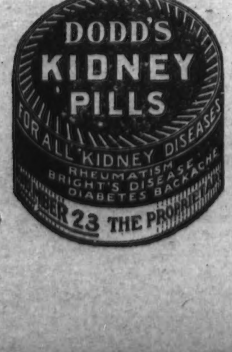
Yours truly,
J. G. LESLIE.

Dartmouth.

Higher Pay For Teachers

Commenting on Mr. Rockefeller's gift of $100,000,000 to meet the urgent needs of educational institutions in the United States and Canada, A. H. Ball, deputy minister of education for Saskatchewan, declared that no more forceful or dramatic recognition of the existence of a grave emergency could have been given.

Only prompt action on the part of those responsible for fixing the salaries of teachers in this province, said Mr. Ball, can stop the present flow of the best material from the teaching profession into other and more lucrative occupations. Unless this action is taken, Saskatchewan will lose from its schools the intellectual cream of the province, and be forced to depend on second rate and third rate teachers for the education of its future citizens.



Basis of Canada's Future Success

Canadian Development Must Depend Upon a Constant Influx of Suitable Immigrants

Ernest H. Godfrey, of the Dominion Bureau of Statistics, Ottawa, in a paper before the Royal Statistical Society on "Fifty Years of Canadian Progress as Illustrated by Official Statistics, 1867-1917," drew attention to the remarkable increase in the forestry reserves of the Dominion, due to the policy of the Dominion and provincial governments. From 1901 to 1918 the reserves had, he said, increased from 7,413,760 acres to 152,833,955 acres in addition to an estimated 20,000,000 of acres of unalienated land in British Columbia.

Discussing the future, Mr. Godfrey said that to a large extent Canadian development must depend upon a constant influx of suitable immigrants, and of capital. It was probable that settlement in well organized communities in which women would take their natural part would relieve the isolation of prairie farming. The opening of the Panama Canal and the construction of the Hudson Bay Railway should provide important new outlets for Canadian products. It would be bold to attempt to foretell the future effect of aviation on national progress, but it was already evident, he remarked, that exploration and prospecting in lands inaccessible by rail would benefit immensely by this means of locomotion. There was a practically unlimited field open to Canada in every direction, whether as regarded agriculture, forestry, fisheries, minerals or manufactures.

WELL SATISFIED WITH BABY'S OWN TABLETS

Mrs. A. Bernard, La Presentation, Que., writes:—"I have used Baby's Own Tablets for my baby and am well satisfied with them. I have recommended them to several of my friends who have also used them with beneficial results." The Tablets are a mild but thorough laxative which regulate the stomach and bowels and thus prove of benefit in cases of indigestion, constipation, colic, colds, etc. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Tribute to Manhood

Prince of Wales Has A High Sense of Duty.

No visitor of any rank from any country ever had such a welcome from America as the young Prince of Wales. To what is all this due? It is due, in the minds of all who have studied the records of his tour, to qualities and ideals which would give distinction to the man if he were not the Prince. He has a charm of manner, sincerity, simplicity and a high sense of duty. He has brains. His speeches, which are his own, reveal some gift of oratory and a very hearty common sense. His actions show a level head on attractively young and unspoiled shoulders. He has, we are persuaded, done work of extreme importance for the Empire and for civilization. We may all pay him a tribute of quite genuine homage without suspicion of sycophancy or fear of turning his quite sane head.—London Daily Express.

Successes For Western Canada

Prizes Won at the International Exhibition Held in Chicago.

At the International Exhibition held at Chicago on December 2, competitors from Western Canada again demonstrated the superiority of their grains by carrying off, among others, nine prizes and several ribbons for hard spring wheat. The successful exhibitors, in order, were as follows: J. C. Mitchell, Dahinda; J. S. Field, Regina; Seager Wheeler, Rosthern; Ander Brothers, Wilcox; A. Tait, Semans; Robert Clark, Speers, and J. F. Cadora, South Forks, all from Saskatchewan; E. F. Young, Oak Lake, and Samuel Larcombe, Birtle, represented Manitoba.

In the Durum classes, P. Keczek and E. F. Young, both of Oak Lake, Manitoba, won first and second, respectively.

In six-rowed barley, Seager Wheeler, Rosthern, Sask., was first, and Samuel Larcombe, Birtle, Man., second.

It will be remembered that Mr. J. S. Field was the winner of the sweepstakes and C.P.R. cup for hard spring wheat and first prize and sweepstakes for oats at the International Soil Products Exposition, at Kansas City recently, while the successes of Seager Wheeler are so well known as to need no enumeration.

End Your CATARRH Today

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhozone."

In using Catarrhozone you don't take medicine into the stomach—you just breathe a healing piney vapor direct to the lungs and air passages.

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhozone is breathed — sneezing and coughing cease at once, because irritation is removed.

Use Catarrhozone to prevent—use it to cure your winter ills—it's pleasant, safe and guaranteed in every case.

No Wonder.

Curio Dealer: "That, sir, is a rare old revolver, carried by Christopher Columbus."

Customer: "What! Why, revolvers were not invented in Columbus' time."

Curio Dealer: "I know. That's what makes this one so rare."

Misfortune is the filter that separates the true friends from the counterfeit.

"BEST MEDICINE FOR WOMEN"

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for woman's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

A Nervous Wreck

BY DR. D. L. GRANTIER.

How many business men feel fagged out, nervous, with a "soggy brain"—worn out completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a common cold to grippe or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water—dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Anuric" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Anuric" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

"Father, who was Shylock?"

"Goodness boy! You attend the finest school in the district, and don't know who Shylock was!" cried his father, with a look of surprise and horror. "Go and read your Bible, sir!"

Common sense is none too common.

See Shabby, Faded Garments Turn New

To match any material, have dealer show you "Diamond Dye" Color Card.

Only a strong minded woman can preserve fruit and her temper simultaneously.

Minard's Liniment Cures Distemper.

Germany Shipped Guns to Mexico

Exportation of War Material Is Violation of Armistice.

Two shipments of machine guns and machine gun accessories being sent to Mexico from Germany and discovered in transit, via Holland, have been held up by the Allied military authorities, according to information reaching United States officials at Coblenz.

The exportation of war material by Germany is a violation of the armistice and peace treaty. The German government has been asked to explain the shipments and notified not to attempt any similar exportation of such arms.

The first shipment consisted of four carloads of second hand machine-guns, all boxed and ready for ocean transport. This shipment comprised 2,695 machine guns and, according to Marshal Foch, the guns arrived in Holland on November 28, the senders being the firm of Brockleman and Senet Gunn, of Cassel. The consignee was the Johan Munts Arms and Trading Company of Amsterdam.

The communication to the Inter-Allied Armistice commission at Cologne, giving notice of these shipments, says that Marshal Foch has information showing that the shipments had been made "Across Holland, with destination Mexico."

MONITOR - ALBERTA

It Got Him.

"Young man," said the educated stranger, stepping into the bookshop, "I would like to purchase a good thesaurus."

"Well, why don't you take a look at the menagerie," answered the fresh but green clerk, "this is a book store."

Wouldn't Do.

"Now, getting down to brass tacks," continued the sideshow manager, "why—"

"I daren't," interrupted the Human Ostrich, who had been ill. "The doctor says I mustn't touch solid food for at least a week yet."

Foolish Question.

"Would you advise me to keep out of politics?"

"Young man," replied Senator Sorghum, "you were born a citizen; the voting privilege is yours whether you desire it or not; you are going to be taxed and generally supervised by the people you assist in electing to office. There's no such thing as keeping out of politics."

History.

"You say your son is a great student of history?"

"Yes."

"But I never see him paying much attention to books."

"No. He is willing to let bygones be bygones. He gets the really important history fresh every day in the newspaper."

It Certainly Would.

"Pop."

"Yes, my son."

"Who was Pocahontas?"

"She was an Indian princess of Virginia, who saved John Smith's life."

"Well, pop, it would be some contract if she was called upon to do that same act for all the John Smiths today, now, wouldn't it?"

The Newsprint Situation

is in such a state, that we must appeal to our readers who are in arrears to pay their subscriptions at once Please let this notice suffice. $1.50 per year

The News Quality Printers

A Big Slump In Trade With The United States

Winnipeg. — In a despatch from its Ottawa correspondent, the Telegram says:

"The feature of the trade returns for November is that imports from the United States for the month show a decrease of $1,500,000 as compared with October, while those from Great Britain show an increase of about $1,200,000. The exports show a decline of approximately $6,000,000 as compared with October, while those of the United Kingdom show an increase of $5,600,000.

"The increase to the latter country is undoubtedly due to the shipments of wheat hurried out before the close of navigation.

"For the first eight months of the present fiscal year, exports to the United States declined $7,500,000 and imports declined $23,800,000. To the United Kingdom for the same period, export declined $36,000,000, while imports increased $11,500,000."

The Newsprint Shortage

Mounted Police Are Instructed to See That Newsprint Order Is Enforced.

Ottawa. — The cabinet council took up the question of the newsprint shortage which is causing the suspension of western Canadian newspapers through the action of the Fort Frances Pulp and Paper company in defying the orders of the paper controller, R. A. Pringle.

The government, it is understood, is determined that the action of the paper controller will have full official support and that his orders must be carried out by the company in question.

The commissioner of the mounted police, Commissioner Perry, who is now in Ottawa, has been requested to see that the orders of Mr. Pringle for the delivery of newsprint to the western papers are enforced.

Manitoba Police Force Increased.

Winnipeg. — When Manitoba's new police force is organized and ready for duty, which Col. J. G. Rattray, head of the law enforcement department, states will be on April 1, it will have a strength of sixty men instead of the limited number at present. Elimination of special constables with their other occupations, will be a feature of the new system.

Armed Bandits Hold Up Bank.

Philadelphia. — Four armed motor bandits held up the Beaver-Brook Bank in the suburbs, got $6,000 in cash and some securities and escaped after holding up the cashier and other employees. It was one of the most daring daylight robberies ever executed in this city.

DANDERINE" PUTS BEAUTY IN HAIR

Girls! A mass of long, thick, gleamy tresses

Let "Danderine" save your hair and double its beauty. You can have lots of long, thick, strong, lustrous hair. Don't let it stay lifeless, thin, scraggly or fading. Bring back its color, vigor and vitality.

Get a 35-cent bottle of delightful "Danderine" at any drug store or toilet counter to freshen your scalp; check dandruff and falling hair. Your hair needs this stimulating tonic; then its life, color, brightness and abundance will return—Hurry!

Facing Serious Charges

Half Million Dollar Bail Is Set for Youths in Chicago.

Chicago. — Five youths, all under 22 years of age, who are charged with half a hundred robberies and the attempted murder of policemen, will have to produce nearly half a million dollars in bonds before they are released.

After thirty victims of recent robberies had identified the prisoners, Judge Jarecki fixed their bonds at a figure which he said "would keep them out of trouble for some time."

The five bonds aggregate $420,000. That of Henry Olsen, the alleged leader of the band, was the highest, being fixed at $180,000. The next highest bond was $90,000.

Robbers Taken by Surprise

Police Declare Plot Was Made to Steal Liquor to Sell at High Price in U. S.

St. Paul. — Railroad detectives surprised robbers attempting to break into a freight car containing 1,600 cases of whiskey estimated to be worth $216,000 en route to Winnipeg from St. Louis, and Jack Burke, local prize fighter, was shot and killed by a policeman.

Harry Rabinovitch, of Winnipeg, said by federal authorities to have purchased the liquor in St. Louis and plotted to have the car robbed here while on its way to Canada where the whisky could be sold for higher prices than are being paid in Canada, was arraigned before a federal commissioner. He pleaded not guilty to the charge of conspiracy to rob the car and was remanded to jail. He was unable to furnish $25,000 bail.

Italian Flier in Long Flight

Completed 435 Miles of Journey from Saloniki to Adalia in Caproni Airplane.

Rome. — The Caproni airplane which left here on Saturday to take a route for the Rome-Tokio flight being arranged for by the Italian government, left Saloniki at 9.30 o'clock Sunday morning for Adalia, on the gulf of the Adalia, and arrived at the latter place at 3.30 o'clock the same afternoon, according to advices received here. From Saloniki to Adalia, the flying distance is approximately 435 miles. The plane maintained a speed of about 72 miles an hour over this course.

Deplores Crime Wave.

Toronto. — Deploring the fact that, despite prohibition, crime was on the increase and the jail population was growing here, Mr. Justice Middleton in his charge to the grand jury at the opening of the assizes told the jurymen that if they could suggest any way to curb the outbreak of crime, it was their duty to do so. The judge said a wave of crime seemed to be sweeping over the whole world.

Holland and the League.

The Hague. — Jonkheer Karnebeek, the foreign minister, announced that, although Holland had not yet decided to enter the League of Nations, delegates have been sent to Paris to arrange Holland's participation in the league's plans regarding shipping on the Rhine.

Australia Still Bars German Goods.

London. — Notwithstanding the exchange of ratifications of the German peace treaty, putting it into effect, the Australian government is to keep still in use the Customs act prohibiting the importation of German goods, it is declared in a Melbourne message.

Lloyd George Is Decorated.

Paris. — On the occasion of the ratification last Saturday of the treaty of Versailles, the Grand Cross of the Legion of Honor was bestowed upon Premier Lloyd George, of Great Britain, and Premier Nitti, of Italy.

Ten Million For Technical Education

Professor L. W. Gill Coming West to Discuss the Question.

Ottawa. — Professor L. W. Gill, director of technical education under the federal department of labor, will leave on a trip which will take him to the Pacific Coast conference on technical education which will be held with all the western provincial governments, and it is hoped that agreements tending to the promotion of this form of education, may be consummated. The federal government has set aside the sum of ten million dollars for the promotion of technical education in Canada, which is designed to cover a period of ten years.

Agreements provide that the provinces shall expend an equal amount to that which they receive from the Dominion government.

Berlin Riots

Forty-two Killed and Over One Hundred Were Wounded.

London. — Reuters' Berlin correspondent, under date of Wednesday, says it is officially announced and seems to be finally established that 42 persons were killed and 105 wounded in the Reichstag fighting. The estimates of the Berlin papers of the casualties in the rioting place the dead in excess of thirty and the wounded at one hundred.

Quiet prevailed during the night; the street patrols were heavily reinforced.

Eye-witnesses estimated the casualties in the riots in Berlin on Tuesday at 50 killed and 100 wounded, according to the Reuter correspondent. The police were finally compelled to throw bombs among the rioters, causing a panic, in which many were struck by bullets and numbers, including many women, were trampled under foot.

Says Treaty Will Be Ratified Soon.

Chicago.— William Jennings Bryan, en route to Washington, predicted that the senate would ratify the Peace Treaty on Thursday. While giving no specific reason for expecting this action, Mr. Bryan said that the senate must bow to the public demand that there be no more delay.

"The people want action," he said, "instead of words."

Admiral Napier Will Visit U. S.

New York. — Vice-Admiral Sir Trevelyan Napier, who commanded a British cruiser squadron in the battle of Jutland, will visit the United States within the next ten days on his way to Bermuda, where he will assume command of North America and West Indies stations of the British fleet, it was announced here. Admiral Napier was mentioned in despatches several times during the war and was created a companion of the Bath.

Another Epidemic OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after-effect, such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify the system against this terrible plague.

If you had the "Flu" before and it left you with any bad after effect, Milburn's Heart and Nerve Pills will bring you back to health and strength.

Mrs. C. C. Palmer, Keppel, Sask., writes: "I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Short Production Principal Cause Of High Prices

Heavy Fighting With Bolshevik Forces

Seventeen Columns of Polish Troops Are Reported to Have Been Captured.

London. — The Bolshevik forces in Siberia are moving eastward rapidly along the trans-Siberian railway. The capture of seventeen columns of Polish legionaries, sixteen guns and 20,000 to the Pacific Coast conference on is reported in a Bolshevik communication received here.

The occupation of Balaya station, about forty miles east of Krasnyarsk, is also reported. The communication says that in the Reval station region fighting continues. In the region of Jacobstadt the Bolshevik retired about six and a half miles from the river Dubna.

Assist Stranded Soldiers

Help Will Be Given Individual Cases of Discharged Canadians in England.

Ottawa. — Questioned as to a report that provision was being made for bringing back to Canada some 3,000 Canadians who had taken their discharge in England and were now in straitened circumstances, Hon. J. A. Calder, minister of immigration and colonization, and who is also acting minister of militia, stated that no such wholesale action was being taken. Members of the C.E.F. who were discharged in England, he said, had entered into an undertaking that there was to be no further provision for their repatriation, but it was now found that many of them were in various circumstances. Each individual case is being considered on its own merits, but where it is thought that a man would be better repatriated, he is being brought to Canada. The minister could make no estimate as to the number who would be brought across in this manner.

Want $200,000,000

Manitoba Great War Veterans Pass Resolution on Big Reconstruction Policy.

Winnipeg. — A resolution urging the federal government to set aside an appropriation of $200,000,000 for the purpose of carrying out a reconstructional policy and for the re-establishment of returned soldiers under the G.W.V.A. re-establishment plan, was adopted by the Manitoba command of the Great War Veterans' association.

The scheme suggested in the resolution includes a comprehensive system of development of the natural resources of the Dominion.

Ontario to Censor Theatre Posters.

Winnipeg. — The Telegram's Toronto correspondent states that an order-in-council has been passed by the Ontario government appointing a board of censors for the purpose of passing on posters, hand bills, cuts, newspaper and periodical advertising, banners, flags, photos, and lobby displays in picture theatres. The charge to the film exchange will be $150 and to the theatres $10 each. All advertising must be censored before they appear in the newspapers under a penalty of from $20 to $100.

Alberta Liquor Profits.

Edmonton. — The profits of the Alberta government on liquor sold within the province under the provisions of the act, amounted in 1919 to about $400,000. This information is contained in a statement issued by Attorney-General Boyle.

Saskatchewan's Population.

Regina. — Saskatchewan's population is now 833,267, according to an announcement made in the legislature by Premier Martin, who based his statement on figures compiled by the vital statistics branch of the provincial health bureau.

Toronto. — Canada's need, more production, was emphasized by Sir Edmund Walker, president of the Canadian Bank of Commerce, at the bank's annual meeting here. Sir Edmund said:

"While we and the rest of the world are failing to produce on a sufficient scale to provide for human comfort and to pay our debts, the price of everything has so increased that although our clearing house and trade returns show higher figures in money, these generally represent transactions based on smaller quantities of merchandise and because we think in terms of dollars and not of merchandise, we are living in a fool's paradise."

Sir Edmund urged a continuation in the development of the industrial resources of the country in a similar spirit of co-operation to that which had won the war. "The rising curve of prices," he said, "cannot be made to turn downward without an increase in production nor can we face the heavy obligations left by the war except by greatly increasing production."

Sir John Aird, general manager of the Bank of Commerce, gave a resume of the situation in respect to foreign exchange. "The rehabilitation of our dollar," he declared, "can only be accomplished by saving, economy and greater production."

No Relief From High Prices

Prof. G. W. Warren Thinks Cost of Living May Drop in From Five to Fifteen Years.

Winnipeg. — People who look for an immediate drop in the cost of living are due to disappointment, according to Prof. G. W. Warren, of Cornell university, one of the speakers of the Manitoba Rural Credit Societies here.

The only consolation Prof. Warren could give an expectant world was this: "Although the pre-war level may never be reached, it seems probable that a very considerable drop in prices will take place in five to fifteen years."

High prices Professor Warren attributed not to the peace treaty, as he said some Americans were prone to believe, not to profiteering and increased wages, but to inflated values, due to war conditions, and the world shortage of goods.

London. — Two Americans were killed and three wounded in a clash with an armored train of Gen. Semanoff, commander in chief of All-Russian armies, between Lake Baikal and Verkneudinsk in the province of Transbaikal, according to the correspondent of the Daily Mail, at Harbin. The Americans were reported to have captured the train.

Chicago. — A six-year job faces federal prohibition agents in making the United States dry, according to H. M. Gaylord, deputy commissioner of internal revenue of Washington, D.C., who addressed agents and inspectors of mid-western states.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts out with the fingers.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce of freezone will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

Fordson Tractor

INCREASES THE CROP

That's because it plows deeper, works the land better and oftener, and does it at the right time

And because it enables you to work a larger acreage.

It not only does your work at lower cost than horses but it helps you to grow bigger crops and saves the acreage that usually goes to feed the horses.

The Fordson pays its way from the minute you buy it. Let us show you how it works.

An Indian Motor Road.

Although the 69-mile road which climbs from the plains of India to the summer resort at Shillong, some 5,000 feet above sea level, is as hard a road for automobiles as one would be likely anywhere to encounter, precautions have been taken that make it probably as safe a road for motorists as any in the world. The road is one of many a twist and turn, steadily climbing at a steep gradient, and with many a blind curve. To make it safe for traffic has required unusual precautions both in making road rules and in securing their proper observance. A schedule has been arranged for up and down cars, and gates which bar the road when not lifted are placed at intervals, while roadside admonitions, impressively worded so that those who ride may read, are a frequent part of the landscape. During the day the road is used chiefly for automobile traffic, an indication, by the way, of how rapidly motor cars are taking the place of the old-fashioned bullock and camel carts and the one or two-horse tongs which not long ago were the only means of transportation on the Indian highways. A picturesque feature of the road, for that matter, is the sight of the bullock carts which have halted at the sidings and are waiting for the coming of night to continue their journey.
